

# CLASSROOM INNOVATION GRANT RECIPIENT 2017-2018

## YOUTUBE CHANNEL

Havre de Grace Elementary School

Principal: Ronald Wooden  
Grant Liaison: Thomas Dennison

Our students are growing up in a world that engages them and interacts with them in a completely different way than even just a handful of years ago. The YouTube Channel program creates a classroom/grade level channel that highlights the school, students and their efforts to make the world better.

- Educate students on how to interact safely with the social media world they live in
- Learn mechanics and technical skills needed to maintain, edit and upload videos
- Provide a medium to celebrate students, share learning and produce work that mirror this generation of students
