

Edgewood HS Academy of Finance Future Ready Lab Sponsor Levels and Benefits

The Future Ready Lab is a 6 week summer internship program that provides Edgewood High School Academy of Finance students, the opportunity to learn about social media marketing and how to create their own business plans while they receive a stipend at the end of their internship. Students are exposed to a multitude of local businesses, leaders, and entrepreneurs who mentor students. Volunteers are asked to become guest speaker and field trip hosts for students over the summer months. During the Lab, students will brainstorm business ideas, conduct market research, write formal business plans, and pitch their ideas to representatives within the community & Harford County's Community & Economic Development office. All donors are greatly appreciated and will be recognized in future EHS Future Ready Lab marketing materials. Your donation will help fund the Future Ready Lab Program. Donors benefit from enhanced reputation and significant recognition from National Academy Foundation & Harford County Public Schools as a leading community sponsor.
